STACY MACHARIA

COMPUTER SCIENCE STUDENT | ASPIRING SOFTWARE DEVELOPER | CYBERSECURITY ENTHUSIAST

Kenya • 0714228534 / 0101165054 • stacy174n@gmail.com
GitHub: github.com/StacyMacharia-n • Portfolio: stacymacharia-n.github.io/my-portfolio

PROFESSIONAL PROFILE

Motivated Computer Science student with a strong interest in software development, cybersecurity and technology-driven problem-solving. Interested in designing and developing practical software solutions that address real-world challenges. Has hands-on project experience developing a Python-based Lost and Found Management System and building a personal portfolio website. Eager to strengthen technical abilities, gain practical industry experience and contribute to innovative technology projects.

EDUCATION

Kiriri Women's University of Science and Technology
Bachelor's Degree in Computer Science | 2025 – Present

Kiriri Women's University of Science and Technology
Diploma in Information and Communication Technology | 2023 – 2024
Award: Credit 1

Kijabe Girls High School
Kenya Certificate of Secondary Education (KCSE) | 2019 – 2022
Grade: C plain

Mt. Longonot Schools
Kenya Certificate of Primary Education (KCPE) | 2010 – 2018
Score: 354 marks

CERTIFICATIONS

- Introduction to Cybersecurity
- Endpoint Security

TECHNICAL SKILLS

Programming: Python
Web development: HTML, CSS and JavaScript
Database management: SQLite
Development tools: Visual Studio Code, Git and GitHub
Mobile development: Android Studio (academic project experience)

PROJECT EXPERIENCE

1. Lost and Found Items Management System
Technologies: Python, SQLite

Developed a menu-driven application designed to help users report lost and found belongings and manage the recovery process.

- User registration and login.
- Lost and found item reporting.
- Automated matching of lost and found items and item similarity scoring.
- Claim submission and administrator approval.
- Notifications, item image viewing, search and reporting functionality.

GitHub: github.com/StacyMacharia-n/Lost-and-Found-System

2. Personal Developer Portfolio Website
Technologies: HTML, CSS, JavaScript

Designed and developed a personal portfolio website to showcase technical interests, programming projects and professional development.

- Responsive dark-themed interface and interactive developer terminal.
- GitHub-powered project gallery and profile photo integration.
- Cybersecurity and technical interests section.

AREAS OF INTEREST

Cybersecurity and ethical hacking • Network security • Software development • Digital forensics • Database systems • Emerging technologies

PROFESSIONAL STRENGTHS

Problem-solving and analytical thinking • Willingness to learn new technologies • Creativity and innovation • Attention to detail • Independent learning • Team collaboration

CAREER OBJECTIVE

To obtain opportunities for professional growth, internships and practical experience where I can apply my Computer Science knowledge, develop my technical abilities and contribute to meaningful technology solutions.
